ALUM-BRITE AC 230

A blend of mineral acids, wetting agents, and soil suspending additives, Alum-brite is a highly effective acid cleaner for the removal of oxidation and tarnishing on aluminium. Suitable for alloy wheels truck bodies, and machined parts.

FEATURES

Highly active.
Fast acting
Biodegradable
Removes oxidation

BENEFITS

Economical dilution
Saves time
No disposal Problem
Leaves a clean bright finish

DIRECTIONS FOR USE. Must be diluted with water before use. 1:15 for light soiling. 1:8 For Medium Soiling., and 1:4 for heavy soiling. Brush or trigger spray onto the surface to be cleaned, from the bottom working upwards. Agitate with a brush where necessary and rinse with clean water. Contact time depends on degree of contamination. Some types of finishes i.e. anodised or varnished aluminium are not suitable for treatment with this product. Always test on a small area first.

CHARACTERISTICS

Appearance	Clear liquid.
Odour	Pungent
Specific gravity	1.01
Boiling Point	above 100c
Flammability	Non Flammable

HEALTH AND SAFETY INFORMATION Toxic and corrosive. Harmful by inhalation, do not smoke when using, For skin contact wash under running water for at least 30 mins.. For eye contact rinse immediately with plenty of water for at least 15 mins, and seek urgent medical attention.. Wear suitable protective clothing Keep out of reach of children. Do not mix with other chemical products unless specifically directed.

First Aid Wash splashes from the skin with soap and water. If swallowed, **DO NOT INDUCE VOMITING.** give water to drink. Medical attention is recommended following eye contact, or if the product is swallowed.

Spillage's Ventilate the area to disperse vapours. Small spillage's will evaporate rapidly, large amounts should be absorbed with mineral absorbent, and collected for disposal.
