BI 300

Bio-Purge system cleaner is an emulsifiable machine degreaser and steriliser, suitable for use in both self contained and centralised systems. The products powerful blend of biocide is extremely effective against all biological fouling, including aerobic and anaerobic bacteria, yeast's, fungi, and bacterial slime. The detergents and solvents contained in the product clean away fatty accumulations and emulsify tramp oil.

BENEFITS

Attacks and removes bacterial and fungal growths. Eliminates objectionable odours. Provides a pleasant odour promoting operator acceptability. Effectively removes oil and slime. Avoids production interruption, can be used during machining.

APPLICATION

For machines in use, add 2-3% (of machine capacity) of **Bio-Purge** directly into the emulsion 12/24 hours prior to draining. On completion of the cleansing period, remove the coolant/machine cleaner and flush with clean water, or a weak coolant mix before refilling with fresh solution.

PRODUCT DATA

Appearance	Deep amber fluid.
Odour	Pine
Specific Gravity	0.89
pH @ 2%	9.8
Flash Point (P.M.C.F.)	39 c
