ECO-STRIP PS 830

An alternative to conventionally formulated paint and graffiti removers being both effective and environmentally friendly. It has been designed to produce a soft gel structure to limit evaporation and maximise contact with substance to be removed. Also suitable for removing PU Resin, tar, alkyd resins, rubber, ink, graffiti, gaskets and grease etc.

- Free from Chlorinated Solvents
- Free from phenols
- NMP free
- Suitable for use on aluminium
- Viscous formula
- Non Corrosive
- Not classified as Toxic

Application

ALWAYS READ HEALTH & SAFETY DATA BEFORE USING THIS PRODUCT

Apply with a brush or swab to surface being stripped or cleaned. If the paint/varnish is several layers thick, scoring of the upper layers will help faster action. Allow up to 30 minutes contact time before scraping off affected areas. Re-application may be necessary for intricate or heavily layered coatings. Finally wash down with detergent and water. Dry thoroughly. **For sensitive materials test on an inconspicuous area prior to main application.**

Available in 5, 25 and 205 litre plastic containers

Also available in a liquid form
