EMULSOCLEAN EM 835

Emulsoclean is a concentrated blend of refined aromatic solvents with a selected blend of emulsifying detergents to produce a quick break emulsion. Its high solvent power make it particularly suited to the more difficult cleaning tasks such as the removal of heavy fuel oils, oxidised and aged oil deposits, tar, heavy greases, and tenacious lubricating or polishing compounds. Suitable for use on all metals glass enamel stone concrete and most painted surfaces.

FEATURES

Contains powerful solvents
Based on low toxicity low aromatic materials.
Powerful emulsifier blend

Excellent degreasing properties

BENEFITS

Effective on difficult soils
Mild odour pleasant to use
Soils are rinsed away with water,
leaving a clean surface
easily dispensed and safe on all metals.

DIRECTIONS FOR USE Use as supplied, by non misting spray or cloth. In ultrasonic or soak tank equipment. Allow 15 to 20 mins soak time, and rinse well with water. In Spray wash applications Dilution of 1 to 5% @70c

CHARACTERISTICS

Appearance	Red liquid.
Odour	Characteristic
Solubility	Emulsifies to form an opaque white solution
Corrosive action	Non corrosive, but may have an adverse effect on certain sensitive plastic, or rubber materials.
Flammability	85c (Pensky Marten Closed Cup)
