METCLEAN EXW SW 508

Originally developed in Scandinavia this unique combination of surface-active agents, sequestrants, inhibitors and alkaline builders was designed for use in enclosed systems over a varied temperature range as a heavy-duty alkaline liquid detergent for the removal of oil, baked on grease, varnish, and carbon. Removes dirt, oil, grease, and solid debris from equipment and components. Formulated to be cost effective and easy to handle.

FEATURES

Potash based formulation
High sequestrant content
Low foam formulation
Liquid product.
Does not form white deposits on long term use
Inhibits limescale formation
Biodegradable

BENEFITS

Powerful cleaner for difficult soils
Efficiently removes carbonised oil deposits.
Suitable for spray washing equipment
Simple to use and ideal for automatic dosing systems.
Keeps machine cleaner Cleaner components

Longer machine service life
Easier Disposal

DIRECTIONS FOR USE

Use in spray washing plant, or in heated soak, or agitated tanks. Use concentrations are dependent on the soil, .

CHARACTERISTICS

Appearance	Cloudy liquid
Odour.	Characteristic
Solubility	Water soluble
Corrosive action	Safe for use on ferrous metals but corrosive to aluminium, zinc, and their alloys.
pH of working solution	12.5
Flammability	Non Flammable
