ORGANIC DESCALER 075

An effective, safe acting, organic acid, low foam descaler, making it ideal for the maintenance of cabinet dishwashers and surrounding areas. Performs as an efficient remover of lime scale in kettles, boilers, shower heads and water heaters. Can also be used as an alternative to mineral acids in the cement and concrete industry.

- Rapid Action
- Easily removes scale, tarnish & water marks
- Safe on most paints, metals, rubber and lacquered alloys
- Effective in hard and soft waters
- Does not contain strong mineral acids
- Contains effective organic acid blend (pH adjusted)
- Biodegradable
- Leaves surfaces clean and bright

Application

Machine De-scaling: For best results de-scaler weekly. Use between 10:1 and 5:1 dilution and either run a cold wash or rinse cycle.

Can be used neat for metal brightening, in showers, kitchens and bathrooms via a trigger spray

General Descaling - Soaking: Pre-Dilute up to 5:1 in water and soak part to be treated, (warm water will be beneficial). Allow up to 1 hour contact time. Repeat if necessary.

Cement & Concrete Cleaning: Apply 5:1 dilution in water soak components/equipment for up to 1 hour. Or foam onto equipment to be cleaned, Leave 30 mins and rinse off. Repeat if required

TEST ON A SMALL AREA FIRST.
