RUST CONVERTOR AC 208

An acid free rust neutraliser for use on corroded steel and sand blasted materials as pre-coating preparation. A white, water based, safe product which reacts quickly with rust to produce an insoluble blue/black coating prior to painting. Ideal for ships, oilrigs, refineries, power stations, boat yards, bridges, railways etc. Supplied ready to use.

- *Neutralises the corrosion process*
- *Produces a water insoluble hydrophobic film*
- *Minimum surface preparation required*
- *Can be applied to damp surfaces*
- *Cost effective*
- *Classified as non-hazardous for use*
- *Compatible with most paint products*

Application

Clean off any oil, grease, loose rust flakes etc. Brush, roll or spray on to surface (coverage approx. 25sq-m/litre). Allow up to 5 hours reaction time before attempting to apply undercoat or paint.

DO NOT DILUTE PRODUCT. READY TO USE.

NOTE: THIS PRODUCT IS NOT A PAINT.

AVOID EXTREMES OF HEAT.

Available in 25 & 205 litre packs.
