## RUST GUARD MT RP 805

**Rust Guard MT** is a solvent blend designed to effectively de-water, and provide a soft rust protective film. It is a high solids product containing a blend of lanolin grease and surface active de-watering and corrosion inhibiting agents dispersed in white spirit, and meets the composition and performance requirements of BS 1133 Section 6, and in reasonable conditions for indoor storage will give indefinite protection.

**Rust Guard MT** has a pleasant characteristic smell and is suitable for use on all metals. Care should be taken with some plastic and rubber materials.

### DIRECTIONS FOR USE.

Use as supplied by, brush, non misting spray, or immersion

### CHARACTERISTICS

Appearance	Clear brown liquid
Solubility	Insoluble in water
Specific Gravity	0.79
Flash point	39c Abel Closed Cup.
Film thickness	0.0091mm
Coverage Rate	225 sq. meters per 5 ltrs
Corrosive action	None on metals but may effect some plastics or rubbers
