HYDRAULIC 32 LU 600

Manufactured from highly refined base oils, with high oxidation resistance and reduced gums and lacquers, They contain carefully selected additives such as anti oxidants; and anti-corrosion to protect the system from corrosion should water be present and anti-wear to reduce wear in rotary pumps used in hydraulic systems.

Benefits

-
- Incorporates the latest corrosion inhibitors for protection against all forms of corrosion
- High shear resistance
- Strong anti foaming and air release properties
- Excellent de emulsification characteristics
- Very high anti-wear performance for reduced wear in highly stressed vane pumps, highly loaded areas such as swash plates
- High oxidation and thermal stability
- Suitable for the majority of hose materials

Application

The Spartan range of hydraulic oils is suitable for a wide variety of applications. They are recommended for rotary, vane, axial piston, gear pumps, and bearings in many types of circulating systems.

Product Specification:

DIN	51524 Part 2
Sperry Vickers	M-2950-S I-286-S
US Steel	127
Thyssen	TH N-256132
SEB	181.222
VDMA	24318
Afnor	NF E 48-600
Denison filterability	TP 02100

Health & Safety: (Group 3B)
