SPARTAN TFR-1 PW 410

Spartan TFR-1 is a mild alkaline detergent product, normally used via pressure washing equipment for the removal of road film, grease, and general vehicle soiling from body work, chassis and engines.

This non caustic product is a blend of anionic and cationic surfactants, and sequestrants. Carefully selected to avoid dulling of paint work. A concentrated product which is typically used at 2%, and is effective on a wide variety of soils.

Spartan TFR-1 is suitable for use on all vehicles, and surfaces. However care should be taken with polished aluminium surfaces as can happen with any alkaline products they could be etched.

FEATURES

Powerful detergent Blend
Non Caustic
Concentrated
Liquid Product

BENEFITS

Rapid removal of road film dirt and grease.
No damage to paint work.
Economy of use.
Easily dispensed

DIRECTIONS FOR USE.

Use via hot or cold pressure washing equipment. Dependant on the degree of soiling, Spartan TFR-1 should be added to the detergent tank either as supplied or pre diluted with water. After cleaning rinse to remove all residues.

CHARACTERISTICS

Appearance	Clear, liquid.
Odour	Mild
Specific Gravity	1.06
