SPARTAN TUFF CUT LU 205

A neat cutting and tapping oil based on high levels of chlorine and fatty additives. This treatment level makes TUFF CUT suitable for all but the most arduous of metal working operations. Freedom from sulphurised additives gives TUFF CUT almost zero odour even when machining at elevated temperatures. Suitable for cutting, threading, drilling and reaming on ferrous and non-ferrous feed stock including stainless steel.

-
- Pale colour
- Low odour
- Extends tool life
- Improves finish
- Good flushing characteristics
- Suitable for ferrous and non-ferrous metals

Application

Can be used via a recirculation system on automatic machines or by hand on smaller operations such as pipe threading.

HEALTH AND SAFETY INFORMATION

Safety Advice. For eye contact rinse immediately with plenty of water. Wear suitable protective clothing Keep out of reach of children. Do not mix with other chemical products unless specifically directed.

First Aid. Wash splashes from the skin with soap and water. If swallowed, **DO NOT INDUCE VOMITING.** Give water to drink. Medical attention is recommended following eye contact, or if the product is swallowed.
